Hand disinfection

# ASEPTOMAN®

## Alcoholic hand disinfectant

- bactericidal incl. TB bacteria, MRSA, yeasticidal
- effective against all enveloped viruses, rota- and noroviruses
- contains emollients for skin care

### Product description

ASEPTOMAN is an alcoholic hand disinfectant to be rubbed into the skin. Aseptoman® is exceptionally kind to the skin. It is free from persistent long-term acting ingredients that might have an irritating or sensitising effect on the skin. Furthermore

ASEPTOMAN contains high quality emollients for skin care which protect the skin against dehydration. It is active against all enveloped viruses as well as Noro (MNV) and Rota viruses.

### Range of application

Hygienic and surgical hand disinfection.

### Application

Dosage instructions:

ASEPTOMAN is to be rubbed into the dry hands.

#### Hygienic hand disinfection:

undiluted 30 sec

#### Surgical hand disinfection:

undiluted 1.5 min

The hands must remain well moistened by the concentrated product for the whole application time."
